

Infor ERP VISUAL Benefits – Tripp Enterprises

Infor ERP VISUAL Benefits – Tripp Enterprises

Profile

With its headquarters located in Sparks, Nevada, Tripp Enterprises manufactures plastic products; plastic vacuum forming, machining, fabrication & 5 axis CNC routing; assembly, engraving, design, engineering, warehousing & distribution services.

Business Challenges

- Very old “manual” standalone manufacturing & accounting system

Solution

- Infor ERP Visual; Avd. Time & Attendance module; Adv. Wedge Barcode module; Synoptix module; Adv. HCM module

Results

- Improved productivity by 10%-15% in the last 2 years
- Reduced quoted lead-time by 5-10 days from an average of 45-60 days for a normal lead-time
- With Visual Time & Attendance, Tripp has decreased the payroll cycle by 10%-15% saving the organization approximately 1 to 1.5 hours. The payroll cycle normally takes one day
- Reduced the number of days to close books from 7-10 business days to 5 business days
- Improved financial accuracy enables Sr. Management to trust & feel comfortable with data coming out of Visual
- Improved reporting on estimated costs versus actual costs versus the price quoted to customers
- Improved inventory accuracy and quicker process with wedge barcoding

Infor ERP VISUAL Benefits – Tripp Enterprises

Project Objective

- To deploy a single, centralized ERP solution to automate the movement of information throughout the organization with visibility into real-time business data and inventory levels for improved business decision making in a job shop environment
- To integrate all business processes on one system, eliminating parallel databases & spreadsheets.

Additional Results

- Improved visibility & accuracy in inventory and work in process with the ability to better understand costs from a system level as jobs pass through the plant
- Ability to run 'inactive' inventory reports for parts that are not moving to assess what can be scrapped/recycled
- Improved visibility into scheduling processes enabling quick response by notifying manufacturers and folks on the floor when parts will be late or when materials will arrive
- Reduced operational costs due to automated processes and efficiencies in employee headcount
- Improved order management whereby all orders put into the system can be viewed by everyone organization-wide
- Visual Time & Attendances' automated processes has resulted in more accurate time card punches as well as improved visibility into employee cards including overtime
