

Rapid Quality Manufacturing, Inc. Implements Infor ERP VISUAL Software Fast-Track Implementation completed in 40 days

Hamilton, OH - September 30, 2011 - Rapid Quality Manufacturing, Inc., a provider of Direct Metal Laser Sintering (DMLS) for the aerospace, medical and dental industries, selected Infor ERP VISUAL manufacturing software to improve their business processes. RQM began a Fast-Track implementation of the ERP Software in June and went live on August 1, 2011. The solution was purchased through Business Technical Consulting, LLC (BizTech), an Infor Channel Partner in Toledo, OH, and BizTech provided the Implementation Support.

“RQM’s internal team was very dedicated to the implementation process,” said Joe Zalewski, Managing Partner and COO at BizTech. “Their determination and focus was the key to the successful implementation. Our team of Darren Farmer, Kurt Carr and Steve Smeiles did a great job supporting the implementation process.”

The functionality of Infor ERP VISUAL manufacturing software will enable RQM to improve their operational efficiency and manage the flow of their business information. Prior to Infor ERP VISUAL, RQM was using both QuickBooks and a separate manufacturing application. The selection team ultimately chose VISUAL because they wanted completely integrated manufacturing and accounting system that was cost effective. Lot Control and Quality Management (VISUAL Quality) were also important factors in their decision.

About Rapid Quality Manufacturing, Inc.

RQM, North America’s first production-focused company for additive metal fabrication parts, began operations in 2007, providing Direct Metal Laser Sintering (DMLS) for the aerospace, medical and dental industries. DMLS technology is a laser-based process that sinters 20 micron sized metal particles layer by layer, building 3-dimensional parts in a matter of hours and days. RQM’s entire focus and business model is the creation of higher-volume production parts using DMLS and other additive fabrication technologies.

About BizTech

Founded in 1999, Business Technical Consulting, LLC (BizTech) is dedicated to providing complete Enterprise Resource Planning (ERP) and Information Technology (IT) solutions that deliver long-term benefits to small and mid-sized manufacturing companies. Like our 500+ clients throughout North America and over 4,000 VISUAL customers worldwide, you can rest assured that your projects are in the right hands. BizTech is an Infor ERP VISUAL Channel Partner, a Microsoft Certified Partner, Comptia A+ Certified and a Citrix Authorized Solution Advisor. BizTech offers industry-leading technologies from companies such as Infor, Microsoft, Dell, HP, Citrix, Cisco, Symantec, Sonicwall, ThinPrint, Wyse, Epson, Lexmark, and Xerox. The BizTech Team has one simple goal: to partner with your company in a joint effort to improve your business processes and increase your profitability.
