

BizTech Receives TEC Accreditation

BizTech is now a TEC Accredited Provider for Discrete Manufacturing ERP Solutions

Toledo, OH - January 12, 2012- BizTech, an Infor ERP VISUAL Channel Partner and provider of information technology solutions, is pleased to announce their status as a TEC Accredited Provider for Discrete Manufacturing ERP Solutions. Technology Evaluation Centers (TEC) is the leading advocate for the enterprise software purchaser.

“I am very proud that BizTech has received TEC Accreditation,” said Joe Zalewski, Managing Partner and COO at BizTech. “TEC is the leader in the ERP Software evaluation industry; it is an honor to be recognized by their organization and a testament to our team and our satisfied clients.”

To become a TEC Accredited Provider, organizations must send company information, along with proven performance of system deployments and client references to TEC. The references are then sent a questionnaire, and the information is compiled by TEC analysts into a report which highlights the strengths and weaknesses of the service provider’s services.

About TEC’s Accreditation Program

In response to TEC’s software-buying community’s requests to evaluate the quality of services provided by their members, TEC developed its Accreditation Program. TEC Accreditation provides information on local and regional VARs, channel partners, vendors, implementers, and consultants. Each company has responded to TEC’s accreditation criteria and provided the requested feedback from client references.

About TEC

Technology Evaluation Centers (TEC), the leading advocate for the enterprise software purchaser, helps private- and public-sector organizations choose the best enterprise software solutions for their unique business needs—quickly, impartially, and cost-effectively. TEC delivers an unmatched range of online software evaluation and selection services that minimize the costs, risks, and duration of software selection projects, and bridges the gap between enterprise decision makers and the vendor/value-added reseller (VAR) community. TEC’s proven approach combines extensive online IT research; a proven software selection methodology; state-of-the-art Web-based software selection technology; and the experience of its analysts and software selection experts.
