
BizTech 2012 Infor ERP VISUAL User Conference

TrueFit Solutions, Inc. to Exhibit at VISUAL User Conference

Toledo, OH – February 10, 2012: BizTech, an Infor10 ERP Express (VISUAL) Channel Partner and provider of information technology solutions, is pleased to announce that TrueFit Solutions will be exhibiting at BizTech's 2012 Infor ERP VISUAL User Conference, 'Moving Forward with Infor10 ERP Express (VISUAL)' at the Holiday Inn Mart Plaza in Chicago, IL on March 18, 19 & 20, 2012.

Located in Cranberry Township, PA, TrueFit's initial client engagement began in 1997 for a software company seeking to bring a new software product to market- a relationship which continues to this day. Since then, they've grown into a business partner to thousands of companies, and offer numerous products and services.

They've even traveled the globe to implement those products and services, but their goal has never changed: To help clients realize the vision of bringing game-changing commercial applications to the marketplace—quickly.

In addition to creating commercial applications for clients, TrueFit offers proprietary products which offer more effective customer and prospect interaction. TrueFit has several applications for Infor10 ERP Express (VISUAL) including CustomerESP, Rename & Merge for VISUAL, eBusiness foundation and Credit Card Automation. TrueFit slices time, reduces effort and lowers costs typically associated with product and service launches, and their business benefit-driven technology solutions empower individuals and organizations to be more flexible, agile and responsive.
